For Immediate Release

## NEW MILITARY-GRADE CONTROLLERS SHOWCASED AT I/ITSEC 2009

CH Products presents new Military Desktop Training Solutions

VISTA, California (October 28, 2009) – CH Products, LLC ([www.chproducts.com](http://www.chproducts.com)) today announces new High Fidelity Controllers for Military Desktop Simulation applications. Products in development for winter 2009 include the A-10C HOTAS and Reaper GCS Console.

The A-10C HOTAS offers a one-for one split throttle and stick. The Reaper GCS Console is an all inclusive, affordable desktop training simulator and is designed to meet the training needs of the Department of Defense and Department of Homeland Security.

Both high fidelity solutions feature industrial grade components, driverless USB connectivity, and award-winning reliability. CH Products can meet or exceed your expectations in Cost, Schedule and Performance.

CH Products is proud to demonstrate, along with The Fighter Collection's A-10C version of "The Battle Simulator", at the *Interservice/Industry Training, Simulation and Education Conference* (<http://www.iitsec.org/>) in Orlando, Florida from Nov 30 – Dec 03, 2009. **BOOTH 2819.**

###

### About CH Products

CH Products offers a complete range of commercial-off-the-shelf (COTS) USB PC controllers for both general aviation and combat simulation and well as special order high fidelity controllers to meet your training needs. CH Products' Industrial offerings are customizable while its commercial line of HOTAS, yokes, and rudder pedals are recognized as the most realistic desktop PC fight simulation controllers available. Each CH Products joystick and controller is manufactured in our 80,000 sq. foot vertically integrated facility in Southern California.
